

The Natural Language Rule

1. We have to obtain and analyze the respondent bank report. 

The Grades

	1	2	3	4	5
exists('obtain respondent bank annual report') and exists('analyze respondent bank annual report')	☐	☒	☐	☐	☐
leads_to(tree, 'Obtain respondent bank report', 'Analyze respondent bank report')	☐	☐	☐	☒	☐
leads_to(tree, receive_exist(tree, 'respondentBankReport'), 'Analyze respondent bank report')	☐	☐	☐	☒	☐
receive_exist(tree, 'respondentBankReport') and exists('analyze respondent bank annual report')	☐	☐	☒	☐	☐
exists('obtain and analyze respondent bank report')	☒	☐	☐	☐	☐

These I find equivalent, i.e., I prefer neither of these formalization's over each other

I think this formalization is very bad
